FLOWER SEED NOVELTIES OF MERIT FOR 1939

PETUNIA SUPER FLUFFY RUFFLES

Cosmos

Extra Early Double Sensation Mixed

After years of selection, our grower has finally succeeded in obtaining that old favorite, Sensation Cosmos in double form. This new introduction has the same characteristics in color and height as the single variety, but the flowers are either doubled or fluted. The latter type are the more informal of the two, as they bloom in a variety of shapes and forms. The percentage of doubles will run a bit higher than the smaller flowered double crested cosmos, as the seed of this novelty is all handpicked from double plants.

Cynoglossum

Amabile Compactum Firmament

A Bronze Medal winner in this year's All American trials, Cynoglossum Firmament is a welcome new dwarf type of Chinese forget-me-not. Plants are 15 to 18 inches tall, very bushy, and of a rich indigo blue color. This should prove to be the most popular of all Cynoglossums.

Dahlia—Improved Dwarf Hybrids

An improved selection of Unwin's original strain, containing a higher percentage of true doubles and a wider range of colors, some of which are: Shades of yellow, scarlet, apricot, lavender, pink, purple, maroon, cream, etc.

Ipomea Scarlett O'Hara

The Gold Medal winner in the All-American Selections for 1939. Scarlet O'Hara is an entirely new color in this popular garden flower, being a rich dark wine red. While the flowers are not as large as Heavenly Blue, they are of good size and freely produced on fast growing vines, which start blooming within 65 days after the seed is sown. The dark green foliage does not make a heavy growth, leaving the plants graceful in appearance.

Lupinus Polyphyllus "Russell"

Re-Selected Stock

These seeds have been saved from named varieties of proved merit, and from which a larger percentage of the best colors and Russell form can be expected. The giant size of the spikes, the fan-like shape of the large individual flowers, and the great range of colors are the distinctive feature of this favorite Lupinus.

Marigold Gigantea Orange Sunset

A companion to Sunset Giants introduced two years ago. Orange Sunset is a deep rich orange with large flowers, borne on strong upright plants about 3 feet in length. Has been tested and found to be a fine forcer under glass and will come over 65% double. The outstanding Marigold introduction of the year.

Petunia Super Fluffy Ruffles

See Illustration

The flowers are so ruffled and frilled that they have the appearance of being double, and are far superior to the original strain originated by Mrs. Shepherd. The flowers are very large with large throats. It is a well balanced mixture of Pink and White, Salmon, Deep Rose, Crimson and Light Blue. An outstanding improvement of an old variety.

Trade pkt..... **$1.00** 1/64 oz.....**$4.00**

Petunia Hybrida Hollywood Star

This lovely new Petunia is a charming shade of rich rose, with an amber throat. The flower is unique in that it forms a five-pointed star. A fine garden variety, as it is early and free blooming and the plant is so covered with blooms that hardly any foliage shows.

Trade pkt.....**50c** ¼ oz.....**$1.75** Oz.....**$6.00**

Petunia Grandiflora Nana Compacta

Velvet Ball

In habit Velvet Ball is the last word in excellence for compactness, dwarfness and free flowering character. About 8 inches in height with a spread of only 8 or 10 inches; each plant will have a dozen or more flowers in bloom at a time, each flower about 2½ inches in diameter, of a deep velvety blood red color. Highly recommended for pot plant sales and border work.

Trade pkt.....**75c** 1/16 oz.....**$3.00** ¼ oz.....**$9.00**..

Phlox—Gigantea Salmon Glory

Color is a pure salmon pink with a distinct creamy-white eye. This combination with its gigantea florets, clear crisp appearance makes Salmon Glory one of the outstanding novelties of the year. We highly recommend it to the trade.

GLADIOLUS

For Greenhouse and Outdoor Planting

A favorable growing season in many sections has resulted in the harvest of a large crop of Gladiolus bulbs this season. We can assure our customers of fine, well cured and graded bulbs; strictly up to size and true to name. Prices on these bulbs are now so low that there is no risk for the grower, who can use his own cut, and should show a profit for anyone who grows for a wholesale market.

Chrysanthemum Rooted Cuttings

Our cuttings are shipped by one of the largest mum growers in the country, who devote acres of space to stock plants, and produce cuttings by the million. Naturally extreme care has to be taken to keep the plants free from disease and insects and we can, therefore, promise delivery of clean, healthy and well rooted cuttings, which are a pleasure to receive.

Orders placed well in advance can be delivered on any date customer may specify. Shipments usually start about the end of February and depending somewhat on the season, is in full swing by the middle of March.

Due to our being advised weekly as to the available supply of each variety, we are able to advise promptly whether there will be undue delay in filling orders; otherwise, you can expect reasonably prompt shipment on all orders.

As cuttings are put up in bundles of 25, any change means additional expense, and the following schedule of prices will prevail where less than 25 of a variety are ordered:
